Universal thermal activation of a lone-pair ligand-field transition. Conformational changes of compounds containing a lone-pair ligand-field transition contribute to many processes including catalytic reactions and energy-conversion reactions. While the influence of conformational changes on these processes has been investigated, there are no systematic treatments of the thermal activation of a lone-pair ligand-field transition that compare the activation energies over a range of temperatures and the activation mechanisms. We use an open-shell half-sandwich rhodium complex as a model to study the thermal activation of a lone-pair ligand-field transition. We report a series of activated monocyclic rhodium complexes in which a single non-bridging pyridine ligand unbinds to become the first ligand-field ligand and a bridging pi-allyl ligand is replaced by a pi-allyl-imido ligand. The ligand-field-transition conformation for these complex is fully determined by metal-ligand interactions. Both the theoretical and experimental results support a ligand-localization model for the thermal activation of the ligand-field transition. The CW is developing a series adaptation of Lin-Manuel Miranda's hit musical Avenue Q, with Miranda set to serve as a consulting producer. Avenue Q premiered at the New York Theater Workshop and has since played to sold-out audiences in multiple cities, as well as a New York staging directed by Tony winner Julie Taymor and starring Taymor and Marcia Gay Harden. When the play originally opened in 2001, the cast included Alan Cumming and Matt Doyle. Created and written by Miranda, the musical follows a large group of people that try to find happiness in the small town of Fremont, where everyone appears to be a happier version of

Im sr #1 The senior trial was scheduled to begin on April 12, 2020, and is scheduled to last for at least 32 days. The strike by teachers began on April 30, while the government began paying striking teachers through a bank account. School days were cancelled, as were many government offices and public transport. The government imposed a countrywide curfew from midnight to 5 am during the April 30 strike. During the strike period, several schools were closed, while others offered online education. Students were considered to be in school until September, but the school year was interrupted. On May 3, the government declared a state of emergency, during which the government ceased to pay striking teachers. On May 4, the government shut down the internet through its fiber optic network. Gophers are found in North and South America. They are single-chambered, unwinged, rodent-like mammals about the size of a house rat. The kitchen was a cave, there were two sinks,

one beneath each dish, and no refrigerator. Ra, taut, and somber, was lost in his own thoughts when the team entered the kitchen to eat. They were allowed to keep their food rations. One of the few pleasures Ra had left. The locker room was a plain concrete chamber with two shower heads and two single-person toilets, one on each side. No sinks, but both showers were sink-less. The bodies were to be returned to their family and buried or cremated. Black figures emerged, silently, from the hazy cave-luminescence. They moved purposefully, as if they had been waiting for the others, and. With 3e33713323
