#### What's New In TunesKit Video Cutter?

TunesKit Video Cutter is an excellent video trimming software with features that will make your life easier and your video editing jobs a lot more enjoyable. It has the ability to cut your video clip in a matter of seconds and automatically merge them into one file, so you do not have to go through the whole video editing process again. A user-friendly interface and wide variety of video editing tools will make your video trimming and merging experience amazing! Cut as well as merge your videos in the blink of an eye The application is all you need to cut and merge your videos in a matter of seconds, with it being capable of dealing with almost every type of file. Whether you are using AVI, MPEG, MOV, FLV, MKV, or other video formats, you can run it on your computer without having to face any problems. If you want to cut or merge your videos the way you want it to be, this is the right software to use. Even for beginners, this video editing software is quite easy to use As mentioned, the program does not require much of your time, with you just needing to drag and drop a video file or input the relevant URL to create a task to work on. Once this has been done, all you have to do is click on the

---

“Cut” button, and the tool will do the rest for you. However, if you want to customize how the segment is displayed as the output file, just click on the “Options” button as well as on the “Preferences” section, and you can edit the output location to your liking. Worry not about altering your output folders As for users who want to make sure that the output folder they need is there, there is no problem in that and you can do that with the help of the “Preferences” section, where you just need to click on the “Save Settings” tab. Still, if you want to minimize the program to the system tray for that matter, you can easily access that section as well. The application is highly convenient since it can cut as well as merge videos without your help TunesKit Video Cutter seems to be a very convenient tool since it can cut and merge your videos in a matter of seconds. The features packed here are amazing since you will find that the application does more than just cut and merge videos, making your life easier, and you can use it to enhance your movie-watching experience, too.
